VALENTINE'S DAY

POP-UP CARDS

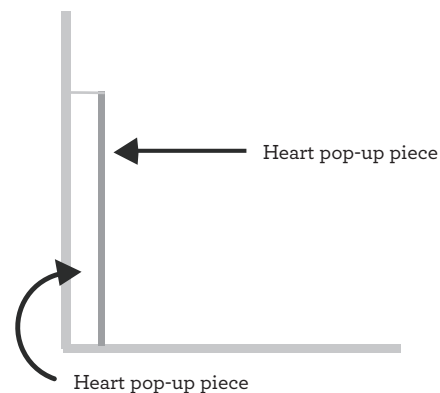

DIRECTIONS

1. Begin by printing out the card template and cutting out the card along the short dotted line. For best results, use a card stock paper.
2. Next, use a craft knife to cut the pop-up piece along the short dotted line.
3. Start with the pop-up piece (heart) and very carefully fold forward. Be sure to also fold along the lines of the two tabs at the top of the pop-up piece.
4. As you fold the pop-up piece up, you will notice the back of the card will lift forward as well, once the pop-up piece is folded, carefully fold along the dotted line of the back card.
5. For more stability, glue the back of the card (excluding the heart piece) to a piece of the same sized card stock.

KEY

- Short Dotted Lines: Cut
- - - - - Long Dotted Lines: Valley Fold
- Mixed Dotted Lines: Mountain Fold
